# JIGSAW ACTIVITY

## SUPPLEMENTARY TEXT – ‘THE ISLAND’

- Each desk has a different focus paper with different headings and focus questions
- You all need to analyse your Book Opening as a group according to the focus question in the middle of the page on their desk
- You are each to stay in your groups with that same opening for the whole activity.
- You are to answer the questions on a section of the page, titling it with your opening number & write down your answers and analysis of the opening in terms of what the illustrator is trying to convey about relationships on the page

You each have 4mins to do this. After the 4mins the bell will ring & your group will need to move to the next desks and do the same thing, answering the focus questions on that paper in response to your opening

By the end of the activity, each focus paper should have 6 grouped responses on it
